Unit tests were written for Alert system and Data Management system. Alert system was tested fully, data management system is not fully tested because for running DataStorage.java class, we need to fully run the system, what is not expected from the test.

Unit Tests:

com.alerts

Element	Missed Instructions	Cov.	Missed Branches	Cov.	Missed	Cxty	Missed	Lines	Missed	Methods	Missed	C
BloodPressureTrendRule		98%		91%	3	17	1	21	1	5	0

Total	8 of 572	98%	7 of 88	92%	11	75	4	122	4	31	0	

Alert system passed all tests successfully

com.data_management

Element	Missed Instructions	Cov.	Missed Branches	Cov.	Missed	Cxty	Missed	Lines	Missed	Methods	Missed
DataStorage		47%		33%	4	8	19	32	1	5	0
DataParser		87%		75%	2	6	5	24	0	2	0
FileDataListener		80%		66%	3	8	6	25	1	5	0
DataSourceAdapter		94%		62%	3	8	1	15	0	4	0
Patient		100%		100%	0	7	0	14	0	4	0
PatientRecord		100%		n/a	0	5	0	10	0	5	0
Total	94 of 470	80%	11 of 34	67%	12	42	31	120	2	25	0

Data management system:
FileDataListener – method stop() – to stop listener from extracting data from the source is never used, its thread is automatically terminated when programme stops.
DataParser – main raw data formats were checked
DataStorage – to run the main method we need to run the whole programme itself, what ius not expected
